

STERILE PROCESSING CARTS

COMPATIBLE WITH CLEANASCOPE AND OTHER SYSTEMS

TECNI-QUIP CARTS continues to set the standard with the innovative

SPC SERIES: Sterile Processing Cart.

SPC Models are designed to to work with the Cleanascope Systems or similar systems and other systems to help maintain and sort totes during the transport process.

- Built from Durable Aluminum - *not plastic like comparable models - 10X LONGER LASTING AND STRONGER*
- Large wheels and casters combined with aluminum allows for easy mobility and rolls quietly!
- Variety of sizes available or custom built to meet your system of totes and accomodate spacing or storage limitations.

Standard SPC Features:

- Four swivel casters, two with directional lock and one parking brake
- Ergonomic push handle and perimeter bumper
- Two-Way or One-Way entry available for easy access
- Standard with Vinyl Front Covers
- Locking doors available for increased security
- Wheels and covers easy to replace and always in stock at our factory!
- Models available to accomodate your cart washing or sterilization system

PRICING STARTS AT \$1,500.00
